

# **SAVE THE TULLOS HILL DEER**

**Aberdeen City Council intends planting trees on Tullos Hill as part of their Tree for Every Citizen scheme. To protect those trees, instead of using tree guards or planting elsewhere, they plan to cull roe deer. Why? Because this is the CHEAPEST option! This is unethical and unnecessary. It also wouldn't work. Deer move from place to place; these deer have managed for generations without Government culls. We are also cutting down trees elsewhere to pay for this scheme! IT MAKES NO SENSE!**

**The City recently cleared gorse from a large section of Tullos Hill – which revealed rocky ground, little soil, and a large amount of industrial waste - rusted, sharp metal, machine parts, wire cables. THEY WANT TO USE SCHOOL CHILDREN TO WORK IN THESE UNSAFE CONDITIONS TO PLANT TREES! TELL THEM YOUR CHILD WILL NOT BE INVOLVED!**

**The past scheme failed due largely to weeds – and this failure cost the taxpayer at least £43,800: why throw good money after bad? Four community councils and thousands of petition-signers told them to stop, but Councillor Aileen Malone insists the scheme will go ahead.**

**TELL YOUR COUNCILLOR YOU WANT THIS SCHEME ENDED NOW!**

### HOW YOU CAN HELP:

**Write to: Chief Executive Valerie Watts, email:**

[chiefexecutive@aberdeencity.gov.uk](mailto:chiefexecutive@aberdeencity.gov.uk)

**Write to the councillors who can still stop the cull. Remind them there is an election in May. Contact details can be found at:**

<http://committees.aberdeencity.gov.uk/mgMemberIndex.aspx?bcr=1>

**More details on the history of this money-wasting, wildlife-destroying scheme can be found at:**

### KEEP TULLOS AS MEADOWLANDS

**Tullos already is a bio-diverse meadow supporting life:  
Turning it into a forest which won't grow is unacceptable. Aberdeen wants to spray weed killer on the hill for 2-3 years – say no!**

**Please sign our petition – details at**  
<http://suzannekelly.yolasite.com/>

**If you want kept up to date with this campaign e-mail
